

# Iroquois Insider 25th Edition

## Silver and Gold

It is so fitting that this is our 25<sup>th</sup> edition at the same time the Iroquois Pipeline is celebrating its Silver Anniversary. That's right Iroquois has been around for 25 years! Which got us thinking, silver and gold might be a festive way to acknowledge all of you! Obviously, we can't shower you all with actual silver and gold but we can compare you to these precious metals.

It's like that old scout song "Make new friends but keep the old... one is silver and the other gold!" Welcome new shippers & schedulers but savor the old, one is silver and the other gold!

To you our customers, contacts, interconnects and friends, we appreciate your business, friendship, and kind words. We wish you a bright and shiny holiday season and a very Happy New Year!

## Frosty

Frosty, the weather's finally cold enough for heat,  
With noms in hand, the pipeline meets the demand  
And the teamwork can't be beat.

Frosty, the weather's really freezing all this week,  
Half the country now has snow  
But the schedulers know, it's more gas the traders will seek.

There really was no magic, those balanced noms were sound  
The lines were properly ranked and no errors could be found.

Frosty, the weather can really help the energy biz.  
The schedulers said "let's worry not, the on-call person is a wiz".  
Down through the pipeline the gas did flow that night and day,  
Stopping here and there delivering to  
the interconnects on the way!

## Do You See What I See?

Have you noticed the changes to the **Nominations** screen in IOL? If you select **Print**, we now give you the opportunity to Save As a PDF or MS Excel (xlsx) document!  
A holiday wish fulfilled!

Also new on the Nominations screen are the **Upload** and **Download** buttons. Coming soon you will have an uploader to assist you with those ever changing, multi-lined nominations some of you encounter on a daily basis.  
Looks like you can cross that wish off your list as well!

Not to be outdone by the nomination screen, **Contract Reports** now shows capacity release and re-releases in the **Temporary Assignment Information** section.
