# A PUBLIC AWARENESS MESSAGE

Iroquois Pipeline Operating Company operates and maintains a natural gas pipeline to bring clean, safe and reliable energy to your area. If you are a landowner, there may be pipeline facilities on or near your property. The purpose of this message, and the information on the back cover, is to make you aware of our pipeline and what to do in the event of an emergency.

## Hazards of natural gas

- Flammable in concentrations of approximately 5% to 15% gas in air
- Explosive in a confined space if present in the above concentrations
- Asphyxiation, by displacing oxygen in a confined space

## How Iroquois prevents pipeline damage

- Participation in one-call and dig-safe programs
- Inspection programs
- Design and construction practices
- Workforce qualifications
- Public education programs
- Industry safety practices and government oversight
- Pipeline markers and facility mapping
- Leak surveys
- Patrol of facilities
- Pressure monitoring
- Odorization
- Communication and coordination with city and municipal agencies
- Security measures
- Integrity management programs

## Location of the Iroquois Pipeline

- The pipeline is buried and identified by white and blue markers along the right-of-way with our Emergency Contact Number (1 800.888.3982).

## Help us prevent pipeline damage

- Call before you dig – see back cover
- Notify us immediately if the pipeline is inadvertently struck during excavation
- Report unauthorized excavations or suspicious activity at any pipeline facility or on the right-of-way

## Emergency Preparedness

- Emergency Operating Plan and Field Operations & Maintenance Procedures are in place. Engineering and Operations departments keep the plans current.
- Necessary training provided to state and/or local emergency management personnel.
- Close and continuing relationship maintained with emergency responders and local officials in our pipeline communities to prevent and prepare for emergencies.
- Meetings held to provide operational safety information to firefighters and other local emergency responders serving communities along our pipeline route.

## For Emergency Responders

If you are interested in attending one of Iroquois' Emergency Responder sessions, check our website at [www.iroquois.com](http://www.iroquois.com) for a session near you. If a session isn't scheduled for your region, contact our Emergency Response Liaison Nicholas DuBord at 203.944.7068, or Jill Johnson, Communications and Public Relations Specialist, 203.925.7215 to arrange a presentation.

## If you are responding to a suspected leak

- Secure the site and take steps to eliminate ignition sources
- Evacuate the general public from the vicinity of the leak
- Control secondary fires
- Do not try to extinguish a gas burning fire unless there is a threat to life
- Contact Iroquois at 1 800.888.3982

## Front Cover

## Barns / Bridges / Lighthouses

All images highlighted in this calendar are located in counties that are host to Iroquois' Pipeline.

Further information on Iroquois' safety, integrity and public awareness programs is available on our website at [www.iroquois.com](http://www.iroquois.com).

## President's Message

*"Pipeline safety is a responsibility that is shared among pipeline personnel, federal and state agencies that provide oversight, public safety officials and our neighbors who live and work near our pipeline."*

I am honored to begin my new role as Iroquois' President and remain committed to continuing the company's culture of safety that is such an essential part of our business operations. Our organization thanks Jeff Bruner for his 32 years of service, and his leadership as president over the past 12 years. We wish him all the best in his retirement.

Although new to the position, I have been with Iroquois for more than 30 years and recognize the critical role the company's Public Awareness and Education Program plays in safeguarding our host communities. And so, it is my pleasure to continue the long-standing tradition of providing the Iroquois calendar to our many stakeholders.

This publication is one of the many ways we communicate pipeline safety information to residents and businesses located within 1,000 feet of our natural gas pipeline, as well as public officials and emergency responders that serve the towns and cities we traverse. The 2025 Iroquois Calendar features charming country barns, unique bridges and eye-catching lighthouses - all of which are located within the counties that are host to our 414-mile natural gas pipeline.

Pipeline safety is a responsibility that is shared among pipeline personnel, federal and state agencies that provide oversight, public safety officials and our neighbors who live and work near our pipeline. Although accidents are rare, it is our responsibility to make sure we keep our communities informed about the location of our pipeline and what to do in case of an incident. It is important that you understand all the facts provided in this calendar related to pipeline safety in general and those specific to Iroquois.

I hope you enjoy viewing the locations featured within this calendar and display it throughout the year as a convenient reference to Iroquois' emergency and non-emergency numbers should you need to contact us.

Scott E. Rupff  
President

SHELTON, CT / FAIRFIELD COUNTY

# January

## NATURAL GAS SAFETY TIP

Pipeline leaks or ruptures are rare, but being able to recognize and respond to an incident is an important part of living and working safely around underground pipelines. Visit [www.iroquois.com](http://www.iroquois.com) for more information.

## NATURAL GAS SAFETY TIP

It's important that you read any mailings you receive from us as it means the Iroquois pipeline is either within 1000 feet of your property or located in your community.

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
	1	2	3	4 Full Moon ☉	5	6
7	8	9	10	11 Last Quarter Moon ☾	12	13
14	15 Hanukkah	16	17	18	19 New Moon ☀	20
21 Winter Solstice	22	23	24	25 Christmas Day	26	27 First Quarter Moon ☽
28	29	30	31		<b>November</b> S M T W T F S 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30	<b>January 2026</b> S M T W T F S 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31

Natural gas has an excellent safety record, but like all forms of energy, it must be handled properly. It is important for everyone to be familiar with the characteristics of natural gas and be prepared to react properly to ensure your safety and the safety of others.

### What To Do If You Suspect a Natural Gas Leak

- 1 Move to a safe location.
- 2 Call 911 and Iroquois' Gas Control at **1 800.888.3982**.

Do not strike a match; use telephones; operate engines and motors; or switch on/off appliances, lights, or even a flashlight in the area where you smell gas. These items can produce sparks that might ignite the gas and cause an explosion.

### How To Detect a Natural Gas Leak

	<p><b>Smell</b> Natural gas is a colorless, odorless gas. Some pipelines are "odorized" with a smell similar to rotten eggs to aid in detection of a leak. Iroquois has both odorized and unodorized pipeline segments. See box at left.</p>
	<p><b>Sight</b> A natural gas leak can be seen as a dust cloud, mist, fog, bubbles in standing water, or vegetation that appears to be dead or dying for no apparent reason.</p>
	<p><b>Sound</b> Leaking natural gas sounds similar to air roaring, hissing, or whistling.</p>

### For Additional Information on Pipeline Safety

- Visit our website at [www.iroquois.com](http://www.iroquois.com)
- Call Iroquois at 1 800.253.5152
- Send Iroquois an e-mail at [PSA\\_Ad@iroquois.com](mailto:PSA_Ad@iroquois.com)
- Information about pipelines in your area may be available through the National Pipeline Mapping System at [www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov)

### How to Prevent Pipeline Damage

Help prevent pipeline damage by calling 811 or your local one call center at least two working days before you start digging.
